A b o u t U s

Since 2001, Donn Roberts Construction has worked to build an extraordinary community one home at a time. Building on that trust and understanding Donn Roberts Construction Inc.(DRC) was formed.

Our team is dedicated to providing you and your project with the highest quality craftsmanship and up to the minute communication from start through finish. The final result of our efforts is your project, built to give you years of enjoyment, value, and pride of ownership.

From custom home building to commercial jobs such as stores, offices and schools. Donn Roberts has more than 30 years of experience in every kind of construction.

BUILDING GREEN

It is the practice of creating structures and using processes that are environmentally responsible and resource-efficient throughout a building's life-cycle, from siting to design, construction, operation, maintenance, renovation and deconstruction. This practice expands and complements the classical building design concerns of economy, utility, durability, and comfort. Green Building is also known as a sustainable or high performance building.
